Exam This new Brief Sixth Edition of David Newman's text is the streamlined version of *Sociology: Exploring the Architecture of Everyday Life* with the same goal: to be a textbook that, in the author's words, "reads like a real book." Newman shows how to see the "unfamiliar in the familiar"—to step back and see organization and predictability in our taken-for-granted personal experiences. He uses the metaphors of "architecture" and "construction" to help us understand that society is not something that exists "out there," independently of ourselves; rather, it is a human creation that is
