In a conversation with David Gergen and Van Jones, SE Cupp discusses how the role of president has evolved under the Trump administration.

Publisher's description: This book describes eight different models of decision-making, compares the models, and illustrates how to use each model with actual cases from schools. The frameworks include classical, administrative, incremental, mixes scanning, political, and garbage-can models, as well as two models of shared decision-making. After illustrating the use of these decision-making models to analyze and develop solution strategies, students have the opportunity to explore about fifty actual cases to build their own analyses and solution strategies.

Addressing the issues and problems faced by writing program administrators (WPAs) and writing center directors (WCDs), and how they can most effectively resolve the political, pedagogical, and financial questions that arise, this book presents essays from experienced

WPAs and WCDs at a wide variety of institutions that offer scenarios and case studies demonstrating the types of issues that these administrators have faced and their solutions. Covering a broad range of topics, the book will help both new and experienced WPAs and WCDs develop and maintain effective, efficient, and successful programs and centers. After a preface (by Douglas D. Hesse) and an introduction, essays in the book are (1) "In Pursuit of Competence: Preparing New Graduate Teaching Assistants for the Classroom" (Richard Bullock); (2) "Selecting and Training Undergraduate and Graduate Staffs in a Writing Lab" (Muriel Harris); (3) "The Problem Graduate Instructor" (Lynn Langer Meeks and Christine A. Employees are an organization's most valuable asset. However, getting employees to perform at optimal levels is determined by the quality of the administrators. "Tips for Administrators" is a practical guide for those who are new to administrative and managerial roles, or who feel they can become better at running their departments. Written in an easy-to-read style, "Tips for Administrators" incorporates psychological principles of organizational behavior and relationship building to help administrators optimize the performance of their departments and institutions.

Designed for the management and development of professional nurses, this text provides management concepts and theories, giving professional administrators theoretical and practical knowledge, enabling them to maintain morale, motivation, and productivity. Organized around the four management functions of Planning, Organizing, Leadership, and Evaluation, it includes new chapters on total quality management, the theory of human resource development, and collective bargaining. Additionally, content has been added to include

This volume is an ideal reference source for persons investigating specific areas within the diverse field of public affairs and administration. Public Administration includes two comprehensive essays that give a broad overview of the entire field, describing how it has developed through scholarly research and professional practice. It identifies the principal "schools of thought" and the areas of specialization that support them ... covers such topics as state, local, and comparative public personnel administration and public policy analysis ... reviews the most frequently cited sources in the field ... provides details on budgeting and finance ... and pinpoints the major sources for 33 specialized subcategories within the field. This bibliography represents the most current treatment available for historic and recent developments in public administration, and serves as a valuable reference for graduate- and advanced undergraduate-level courses in public affairs and administration, political science and government, policy analysis, organization theory, management science, budgeting and finance, labor relations and public personnel management, and for professionals in government agencies and institutions. Book jacket.

Case studies enable aspiring administrators to refine their reaction skills as well as their critical-thinking skills by responding to a multitude of problems in a short time. Originally published in 1998, the case studies in this book provide a broad-based overview of the kinds of real problems that schools were facing at the time. The problems administrators face on a daily basis vary in scope and complexity. Short cases provide opportunities to address, analyse, and
