BP America Refinery Explosion | CSB

On March 23, 2005 at the Texas City refinery, a geyser of flammable hydrocarbon liquid and vapor erupted from a blowdown stack, which ignited creating a huge fire. The result: 15 fatalities and 180 injuries. All the individuals who died were in or around a group of office trailers clustered near the blowdown drum.

BP Texas City Refinery: The Inevitable Cost of an Incident

A detailed study of the events leading up to the BP Texas City refinery explosion of 2005. Litigation is still ongoing for this incident, which was preventable.

BP Texas City Explosion - YouTube

On March 23rd, 2005, during the startup of an isomerization (ISOM) unit, the BP Texas City Refinery, Texas, experienced an industrial disaster. A massive explosion and fires killed 15 people and injured another 180. A key factor was the siting of temporary occupied trailers close to a process unit handling highly hazardous materials (the CSB noted that all fatalities occurred in or around trailers).
