author's book Hatchet, this story portrays what would have happened to Brian had he been forced to survive a winter in the wilderness with only his survival pack and hatchet.

Celebrate the thirtieth anniversary of the Newbery Honor–winning survival novel Hatchet with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. Hatchet has also been nominated as one of America ' s best-loved novels by PBS ' s The Great American Read. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother ' s infidelity, is traveling by

single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

Two years after having survived a plane crash into the Canadian wilderness, a sixteen-year-old boy returns to the wild, where he befriends a wounded dog and hunts a rogue bear.

After having survived alone in the wilderness, Brian finds that he can no longer live in the city but must return to the place where he really belongs.

Guess what -- Gary Paulsen was being kind to Brian. In *Guts*, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in *Hatchet*; plane crashes he has

seen and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal. There's a handy chapter on "Eating Eyeballs and Guts or Starving: The Fine Art of Wilderness Nutrition." Recipes included. Readers may wonder how Gary Paulsen survived to write all of his books -- well, it took guts.

Because of his success surviving alone in the wilderness for fifty-four days, fifteen-year-old Brian, profoundly changed

by his time in the wild, is asked to undergo a similar experience to help scientists learn more about the psychology of survival.

Only 13, John must track a deer in the Minnesota woods for his family's winter meat, and in doing so finds himself drawn to the doe he's been tracking and hating his role as hunter.

Super-brain Zack Griffin and hoops fan Jeff Brown wouldn't normally hang together. But when both boys win trips to a famous science laboratory, they find out they do have one thing in common: curiosity. They discover that one of the machines in the lab can "bend" time--and Jeff and Zack end up in 1334 B.C. Egypt! There's a plot afoot to kill King
