This book features sixteen chapters written by distinguished scholars who collectively point to a roadmap for advancing business ethics education at a critical juncture in the history of corporate America. The editors frame the book with an introductory chapter that details a gold standard for delivering ethics in the business school curriculum that signals to students that ethics matters, provides an adequate counterbalance to the amoral subtext that dominates much of business education, remedies assessment problems associated with current accrediting standards, and prepares students for newly minted and fast-growing careers in ethics compliance, risk management, and corporate social responsibility. The chapters that follow lay out some challenges and opportunities that administrators and educators need to address in order to improve business ethics education and business school reputations in a post-Enron climate. Both traditional

Read Book Business Ethics Ferrell Chapter 9

and experimental perspectives on delivering ethics in the curriculum are covered in conjunction with research that substantiates the potential for improving student ethics competencies after exposure to ethics coursework. Methods for incorporating ethics in various subjects, including accounting, corporate governance, environmentalism, global business, managerial decision making, and human resource management are also given as part of the roadmap for advancing business ethics education.

In the modern business environment, companies strive to create a sense of moral obligation within their employees in an effort to foster a concern for social welfare and justice among global organizations. Despite the efforts of managers and directors, many companies continue to find it difficult to overcome the moral dilemmas of the corporate sector. *International Business Ethics and Growth Opportunities* presents the necessary methods and resources for managers and directors to be successful in leading their corporations in a responsible and morally conscious manner. Examining the dangers of unethical behavior, this book provides the strategies and tools for proper management to encourage company strength and success. This publication is an essential resource for academicians, researchers, officials, post-graduate students, and professionals in the fields of

the accessible, up-to-date approach provides unmatched insights into the complex environment in which contemporary managers make ethical decisions. The book's solid managerial framework and new updates highlight the latest developments in ethics and how they relate to overall ethics concepts, processes, and best practices used throughout successful business ethics programs. Your students see how ethics can play a critical role in key strategic business decisions. Captivating new cases and engaging examples reflect today's most recent business developments and crises. Rather than focusing on intellectual reasoning alone or a philosophical discussion of ideas, the book's proven learning features help students prepare and practice confronting the types of actual ethical dilemmas they will face in today's business world. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book analyzes issues related to multinational corporations, their immense economic and political influence in a globalized world, and corporate social responsibility. It offers a unique discussion of corporate social responsibility in the emerging economies of Brazil, India, South Africa, China, Bangladesh, Chile, and the Philippines.
