7th Edition will be updated to align with the latest Financial Services Training Package. The text addresses units in Certificate III Accounts Administration, Certificate IV Accounting, Diploma of Accounting and Certificate IV Bookkeeping. This new edition of a bestselling introductory accounting text is aligned to the latest International Financial Reporting Standards (IFRS) as adopted by the Australian Accounting Standards Board (AASB), and will satisfy the requirements of an increasingly diverse group of students.

This book deals with current discussion of the classic works by

Two prominent authors on accounting, R. Mattessich and Y. Ijiri. Their antecedents, and the way in which each author came to construct his work, make up the central subject of this study.

Offers the most up to date coverage of International Financial Reporting Standards as they are stipulated by the Australian Accounting Standards Board.

This book, first published in 1990, examines the works of Theodore Limberg and Fritz Schmidt and their contribution to the development of the case for replacement price valuations. It

analyses which of Limberg's and Schmidt's contributions was the most prominent and whether either was the genesis of an evolutionary development of replacement price valuations. This analysis is apposite. History indicates we will experience further periods of inflation and accompanying debate on the serviceability of accounting proposals to incorporate the financial effects of price and price-level changes.
