Design Build Finance

Maintain Operate

Design build finance and operate. An example of a design build finance and operate procurement route is a public private partnership (PPP), the most common form of which is a private finance initiative (PFI) project (ref. HM Treasury Public private partnerships). A single contractor (perhaps a special purpose vehicle (SPV), with design, construction and facilities

The design-build-finance-operate (DBFO) model, also called the public private partnership (PPP) model, or the Public Finance Initiative (PFI), is one of the procurement methods used predominantly by governments. In this model, the government is the project owner and it floats a contract inviting private firms to participate in the project.
