Dialogues presents argument not as a battle to be won, but as a process of debate and deliberation --the exchange of opinions and ideas-- among people with different values and perspectives.

Dialogues represents argument not as a battle to be won, but as a process of dialogue and deliberation--the exchange of opinions and ideas--among people with different values and perspectives. Part One contains succinct instruction on analyzing and developing arguments, including critical reading, source documentation, and analyzing visual arguments. Part Two, updated with many new readings addressing current issues, offers a diverse collection of provocative essays from both the popular and scholarly medium. The lucid, lively, and engaging writing addresses students as writers and thinkers, without overwhelming them with unnecessary jargon or theory.

This classic work proves the truth of the Copernican system over the Ptolemaic one, that the Earth revolves around the Sun.

The impassioned abolitionist and eloquent orator provides graphic descriptions of his childhood and horrifying experiences as a slave as well as a harrowing record of his dramatic escape to the North and eventual freedom.

Readable research. This distinctive, theory-driven text uses "The Self" as a theme to give students a meaningful context for exploring the key concepts of social psychology. "Applications" sections have been incorporated into most chapters, and "Featured Study" sections at the end of every chapter summarize the purpose, method, and results of recently published scientific articles. Retaining the emphasis on methodology, the text also continues the tradition of strong gender coverage, while expanding the coverage of social cognition and social neuroscience.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The first and most thoroughly developed audience-oriented argumentation text has been updated to its 8th edition: Argumentation and Critical Decision Making presents argumentation as a cooperative, communicative process. This text examines the general principles of argument in a rigorous yet readable manner and then applies those principles to different spheres of life - law, science, religion, business, government, and politics - to explore how conventions of argument change when applied to these real-world arenas. Focusing on the dynamics of decision making and using real-life examples to illustrate principles, Argumentation and Critical Decision Making aims to help readers develop practical argumentation skills within the world of their daily lives.

Praise for How Learning Works "How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning." --Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, Tools for Teaching "This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching." --Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education "Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues." --Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching "As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book." --From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, e-Learning and the Science of Instruction; and author, Multimedia Learning

&>For courses in Argument and Research. The most thorough theoretical foundation available Writing Arguments: A Rhetoric with Readings, Concise Edition, 7/e integrates four different approaches to argument: the enthymeme as a logical structure, the classical concepts of logos, pathos, and ethos, the Toulmin system, and stasis theory. Focusing on argument as dialogue in search of solutions instead of a pro-con debate with winners and losers, it is consistently praised for teaching the critical-thinking skills needed for writing arguments. Major assignment chapters each focus on one or two classical stases (e.g. definition, resemblance, causal, evaluation, and policy). Each concept is immediately reinforced with discussion prompts, and each chapter ends with multiple comprehensive writing assignments.
