Exam Board: Edexcel Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Endorsed by Edexcel Develop and assess your students' knowledge and mathematical skills throughout A Level with worked examples, practical assessment guidance and differentiated end of topic questions with this Edexcel Year 1 student book - Identifies the level of your students' understanding with diagnostic questions and a summary of prior knowledge at the start of the Year 1 Student Book - Provides support for all 16 required practicals with various activities and questions, along with a 'Practical' chapter covering procedural understanding and key ideas related to measurement - Mathematical skills are integrated throughout with plenty of worked examples, including notes on methods to help explain the strategies for solving each type of problem - Offers plenty of practice with Test Yourself Questions to help students assess their understanding and measure progress - Encourages further reading and study with short passages of extension material - Develops understanding with free online access to Test yourself Answers and an Extended Glossary. Edexcel A level Chemistry Year 1 Student Book includes AS level.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers foundations in psychology: social psychology, cognitive psychology, biological psychology and learning theories. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - - Build understanding of the different question types, so that students can approach each question with confidence. - - Enable students to target top grades in Paper 1 with sample answers and commentary explaining exactly why marks have been awarded.

Develop and assess your students' knowledge and skills throughout A level with worked examples, practical assessment guidance and differentiated end of topic questions in this updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Chemistry specification, this revised textbook will: - Identify the level of your students' understanding with diagnostic questions and a summary of prior knowledge at the start of the Student Book. - Provide support for all 16 required practicals with various activities and questions, along with a 'Practical' chapter covering procedural understanding and key ideas related to measurement. - Improve mathematical skills with plenty of worked examples, including notes on methods to help explain the strategies for solving each type of problem. - Offer plenty of practice with 'Test yourself' questions to help students assess their understanding and measure progress. - Encourage further reading and study with short passages of extension material. - Develop understanding with free online access to 'Test yourself' answers and an extended glossary.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers applications of psychology: clinical, criminological, child and health psychology. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - - Build understanding of the different question types, so that students can approach each question with confidence. - - Enable students to target top grades in Paper 2 with sample answers and commentary explaining exactly why marks have been awarded.

Crista Hazell's Independent Thinking on MFL: How to make modern foreign language teaching exciting, inclusive and relevant takes teachers on a tour of how to get the teaching of a new language right. Foreword by Ian Gilbert. Learning a new language has the power to transform a life, as well as help break down the barriers that seem to be re-emerging between nations, cultures and people. In the UK, MFL teaching has always had to battle with the 'everyone speaks English' argument, not to mention that, for so many, all that remains of their years learning a foreign language is *bitte*, *por favor* or *s'il vous plait*. But with teachers like Independent Thinking Associate Crista Hazell at the front of the class, things can be very different. Drawing on her many years of experience as an MFL teacher and head of department, Crista shares tips, techniques and inspirational ideas geared to help teachers build confidence, increase enjoyment and improve outcomes as they take their MFL teaching to a whole new level. Crista provides a range of strategies from how to hook students in the minute they enter the classroom to ensuring that the vocabulary sticks designed to help learners develop confidence, take risks and enjoy the challenge that learning a new language brings. She also offers ideas and advice on how to make learning new vocabulary and grammar a great deal more effective and empowers teachers to open up the benefits and enjoyment of learning a language to all students, not just those in the top sets. Ultimately, however, her book sets out to help teachers create engaging, relevant and memorable learning experiences in the MFL classroom and encourage their learners to become lifelong and passionate linguists. For MFL teachers and heads of languages departments in primary schools, secondary schools and colleges.

Board-specific Teacher Support Packs provide advice and assistance on how to approach this new qualification. This Pack is appropriate for Edexcel and includes information on how to prepare students for external assessment and how to assist them in preparing their portfolios.

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource.

For study or revision, these guides are the perfect accompaniment to the set text, providing invaluable background and exam advice. Philip Allan Literature Guides (for A-level) offer succinct and accessible coverage of all key aspects of the set text and are designed to challenge and develop your knowledge, encouraging you to reach your full potential.
