Efficient financial management is the essence of business. This book analyses and evaluates core financial management practices of corporate enterprises in India across diverse sectors including realty, FMCG, pharmaceutical, automobile, IT, chemical and BPO sectors. It emphasizes the importance of the integrated process of capital investments, financing policy, working capital management and dividend distribution for shareholders for a developing economy as India. It further highlights the need for financial viability both in totality and segmental performance. The volume also offers a comparative study of the practices of the companies in different sectors to allow a better appreciation of the issues and challenges regarding management of finances. Rich in case studies, this book will be an indispensable resource for scholars, teachers and students of financial management, business economics as also corporate practitioners.

A "what" and "how" guide for managers who do not have a formal background in finance, this book equips them to perform their tasks more effectively and efficiently. It describes the application of concepts of finance in the decision-making of operating managers. The book follows a simple, non-technical language in explaining the concepts of finance. The text is divided into three parts : Part I on Financial Analysis deals with profit and loss statement, financial ratios and funds flow statement. Part II on Cost Analysis is devoted to a discussion on the concepts of cost, utility of costs in decision making, and profit planning and control. Part III on Funds Management explains the techniques of fund allocation, working capital management, and financial planning and policy. This book is made reader-friendly by its lucid presentation of topics and by adopting a practical situational approach in solving problems. Besides practising operational managers, all those preparing for professional examinations would find this book to be of enormous help to them. The book is also suitable for students of business management.

Financial Management by Khan and Jain is one book in the Indian market which deals with topics following step-by-step learning approach backed by large number of solved problems. Keeping in line with the previous editions, this 8th edition brings out the explanation of theories, concepts and techniques explicitly, with more excel integration in the text. This book will be useful to both finance managers and management students. Salient Features: - Updated text aligned with new SEBI guidelines and change in CSR policies - Rich pedagogy - Excel integration-based template made available online. - Web supplements - For instructors: Lecture slides - For Students: Additional cases, solved problems, chapter end solution to numerical review questions
