Book #1 of the INFIDELITY series

The ancient Indian Sanskrit tradition produced no text more intriguing, or more persistently misunderstood or underappreciated, than the Mahabharata. Its intricacies have waylaid generations of scholars and ignited dozens of unresolved debates. In Rethinking the Mahabharata, Alf Hiltebeitel offers a unique model for understanding the great epic. Employing a wide range of literary and narrative theory, Hiltebeitel draws on historical and comparative research in an attempt to discern the spirit and techniques behind the epic's composition. He focuses on the education of Yudhisthira, also known as the Dharma King, and shows how the relationship of this figure to others--especially his author--grandfather Vyasa and his wife Draupadi--provides a thread through the bewildering array of frames and stories embedded within stories. Hiltebeitel also offers a revisionist theory regarding the dating and production of the original text and its relation to the Veda. No ordinary reader's guide, this volume will illuminate many mysteries of this enigmatic masterpiece. This work is the fourth volume in Hiltebeitel's study of the Draupadi cult. Other volumes include Mythologies: From Gingee to Kuruksetra (Volume One), On Hindu Ritual and the Goddess (Volume Two), and Rethinking India's Oral and Classical Epics (Volume Three).

Book #2 of the INFIDELITY series

"If trees have standing before the law, as many argue, then they might very well also have standing in historicalfiction as Melina Sempill Watts demonstrates in this intriguingnew novel...Blending environmentalism, magical realism, socialhistory, and arboreal science, Tree challenges...readers to regard the natural world with new respect."Dr. Kevin StarrCalifornia State Librarian Emeritus

The Baital Pacheesi These immortal tales of chivalry and skullduggery, wisdom and foolishness, honesty and deceit, are about Baital, a mythical wraith like figure, accredited with supernatural powers, and King Vikramaditya whose wisdom is matched only by King Solomon of Biblical fame. For those interested in the ancient sayings, riddles, fables and stories of India, these short tales will prove highly entertaining.

Suvarnadvipa comprises Malay Peninsula and Sumatra, Java, Borneo and Bali islands. These places came under the influence of Indian civilization, in remote past and gradually flourished into powerful empires, rich both in material attainments and cultural refinements. The history and culture of these places are both interesting and culture of these places are both interesting and instructive. Apart from the importance of these regions in themselves, the study of Indian civilization must be regarded imperfect as long as the achievements of Indians and local people who imbibed Indian culture in the Far East, are not taken into account. But very little about these regions was known till Dr. R.C. Majumdar drew our attention to this field of research through his pioneering works in India. Suvarnadvipa in two volumes is the fruit of one of his painstaking researches. The author has used all the available material brought to light by the Dutch savants and all native and foreign sources, viz. accounts of Chinese travellers and Arab historians and geographers. He has interpreted various stories that throw light on the spread of Hinduism and Buddhism in Java, Bali, and Borneo and studied and used local inscriptions as source materials. He deals with the Sailendra Empire and later Indo-Javanese empires with fullness and care. It is an interesting theme told in an interesting manner. The first volume is devoted to the study of the political history upto the downfall of the Hindu kingdoms in Suvarnadvipa, while the second volume deals with the cultural history. Subjects covered by the second volume are law and socio-economic conditions, literature, religions, use of Sanskrit, art and architecture in different ancient sites, etc. The value of the work has been enhanced by seventy-five plates of illustrations.
