What is the nation? What is the idea of India? Whose India is it, anyway? This inaugural volume in the series titled Rethinking India aims to kickstart a national dialogue on the key questions of our times. It brings together India's foremost intellectuals, academics, activists, technocrats, professionals and policymakers to offer an in-depth exploration of these issues, deriving from their long-standing work, experience and unflinching commitment to the collective idea of India, of who we can and ought to be. Vision for a Nation: Paths and Perspectives champions a plural, inclusive, just, equitable and prosperous India, committed to individual dignity as the foundation of the unity and vibrancy of the nation. In order to further disseminate these ideas-the vision for the nation as aspirationally reflected in the Constitution-this book provides a positive counter-narrative to reclaim the centrality of a progressive, deeply plural and forward-looking and inclusive India. It serves as a fresh reminder of our shared and shareable overlapping values and principles, and collective heritage and resources. The essays in the book are meaningful to anyone with an interest in contemporary Indian politics, South Asian studies, modern Indian history, law, sociology, media and journalism.

Throughout India's history, religion has been the most powerful single factor in the development of her civilization. Today, despite her religious tradition, India is emerging as a secular state. In this book, Donald E. Smith explores the origin of the concept of secularization as it is found both in Indian culture and in the example of the western nations. He emphasizes the important role of secularization in India's total democratic experiment and points out that the degree of its realization will undoubtedly affect the eventual character of democracy in India. In addition, the success or failure of the secular state in India cannot fail to influence the attitudes of her neighbors. Professor Smith considers the many aspects and implications of India's attempt to secularize her government. Originally published in 1963.
