If the KLN 90B is interfaced with a mechanical NAV indicator such as an HSI or a course deviation indicator (CDI), the D-bar (deviation bar) should be indicating a half scale deviation to the right. Page 27 The KLN 90B needs to have the correct time, date, and position to be able to determine which satellites should be in view. This information is stored in the battery backed memory of the KLN 90B so it is not normally required to update it.
