An indispensable reference for students enrolled in any business and economics program, Ragan: Economics builds on a rich legacy of success in teaching and learning. Ragan: Economics provides students with an introduction to the major issues facing the world's economies, to the methods that economists use to study those issues, and to the policy problems that those issues create.

Mainstream textbooks present economics as an objective science free from value judgements; that settles disputes by testing hypotheses; that applies a pre-determined body of principles; and contains policy prescriptions supported by a consensus of professional opinion. The Economics Anti-Textbook argues that this is a myth - one which is not only dangerously misleading but also bland and boring. It challenges the mainstream textbooks' assumptions, arguments, models and evidence. It puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study - one which is more an 'art of persuasion' than it is a science. The Economics Anti-Textbook's chapters parallel the major topics in the typical text, beginning with a boiled-down account of them before presenting an analysis and critique. Drawing on the work of leading economists, the Anti-Textbook lays bare the blind spots in the texts and their sins of omission and commission. It shows where hidden value judgements are made and when contrary evidence is ignored. It shows the claims made without any evidence and the alternative theories that aren't mentioned. It shows the importance of power, social context and legal framework. The Economics Anti-Textbook is the students' guide to decoding the textbooks and shows how real economics is much more interesting than most economists are willing to let on.

Building on the success of previous editions, Economics, Twelfth Edition, has been thoroughly updated and revised. Rigorous yet also accessible to beginners, it provides comprehensive coverage of both introductory macroeconomics and microeconomics. The authors balance in-depth explanations of key theoretical concepts with a wide range of real-world examples drawn from around the globe. They incorporate numerous pedagogical features including highlighted definitions of economic terms, short revision questions, and updated end-of-chapter questions. New to this Edition: * Incorporates full coverage of the 2008 banking crisis and recession, featuring revised sections on banking, the financial system, and fiscal policy * Integrates a broad range of international applied examples, including the cost of climate change, celebrity earnings, and global imbalances in the economy * Includes more end-of-chapter questions An updated and expanded Companion Website contains resources for students and instructors: For students: * Self-test questions * Interactive chapters * Web links * Flashcard glossary * Author's blog For instructors: * Figures from the text * Instructor's Manual * Animated PowerPoint-based slides * Test bank

Marc Holzer and Richard W. Schwester have written a fresh and highly engaging textbook for the introductory course in Public Administration. Their coverage is both comprehensive and cutting-edge, including not only all the basic topics (OT, budgeting, HRM), but also reflecting new realities in public administration: innovations in e-government, the importance of new technology, changes in intergovernmental relations, especially the emphasis on inter-local and shared regional resources, and public performance and accountability initiatives. Public Administration has been crafted with student appeal in mind. Each of the book's chapters is generously illustrated with cartoons, quotes, and artwork—all reinforcing the book's theme that the field of public administration is rooted in the cultural and political world. Each chapter is also supported with a listing of key terms, exercises, and additional resources. The textbook is supported by one of the most comprehensive and easy-to-use instructors' manuals of any introductory text on the market today. It contains full lesson plans with activities to accommodate a
