" Kellerman doesn ' t just write psychological thrillers—he owns the genre. " —Detroit Free Press Her name is Elise Freeman, and her chilling cry for help comes too late to save her. On a DVD found near her lifeless body, the emotionally and physically battered woman chronicles a long ordeal of abuse at the hands of three sadistic tormentors. But even more shocking is the revelation that the offenders, like their victim, are teachers at one of L.A. ' s most prestigious prep schools. Homicide detective Milo Sturgis is assigned to probe the hallowed halls of Windsor Prep Academy, and if ever he could use Dr. Alex Delaware ' s psychological prowess, it ' s now. As the scandal-conscious elite close ranks around Windsor Prep, Alex and Milo push to expose the dirty secrets festering among society ' s manor-born. But while searching for predators among the privileged, Alex and Milo may be walking into a highly polished death trap. BONUS: This edition contains an excerpt from Jonathan Kellerman's Victims. " Jonathan Kellerman ' s novels are an obsession; once started it is hard to quit. " —Orlando Sentinel " The combination of Alex Delaware and Detective Milo Sturgis make for the most original whodunit duo since Watson and Holmes. " —Forbes

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

"...profoundly moving..." -Publishers Weekly Nelson Mandela ' s two great-grandchildren ask their grandmother, Mandela ' s youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child ' s perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

" An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.

For centuries the deaf community endured a mixture of derision, ignorance and poverty; they suffered what Dr Johnson described as ' one of the most desperate of human calamities ' . A few schools for deaf children had been founded from the 1780s but it was only in the early decades of the 19th century that philanthropists, evangelists and the deaf themselves began to create institutions to offer spiritual and temporal care for the deaf adults of the great cities of the industrial revolution. This classic example of Victorian charity has received little detailed research. Nick Waite discovered that his own great great grandparents Stephenson had neither hearing nor speech; in the accepted language of their day they were ' deaf and dumb ' . His story brings together social, local and family history to show how care for Sheffield's profoundly deaf developed from the mid-19th century to the present day, together with the three generations of the family who ran the Sheffield Deaf and Dumb Institute from 1871 until it closed in 1960. As in many areas of social reform over the last two centuries, political involvement led to clashes of interest and values, and the Sheffield story illustrates perfectly the gradual and sometimes rocky progress from Victorian philanthropy to the Welfare State. Alone in a Silent World will appeal to those who are interested in the history of care for disadvantaged minorities, specifically the deaf, as well as those who are part of the deaf community, and those with an interest in local history.

Combine your skills in ABAP, SAP Fiori, core data services, and more to master the end-to-end development process for SAP S/4HANA applications. Learn to use the ABAP programming model for SAP Fiori to build applications from scratch, or use SAP Fiori elements to get a head start! Then, deploy your applications to SAP Fiori launchpad and get the best practices you need to operate applications post-development, including Git version control, application tests, and setting up an integration pipeline. a. Getting Started Get the development foundation you need and master SAP S/4HANA architecture, SAP Fiori, design-led development strategies, and the ABAP programming model for SAP Fiori. b. End-to-End Development Use step-by-step instructions to develop in SAP S/4HANA using core data services, SAP Gateway, OData, service adaptation description language, and BOPF. Create list reports and object pages, overview pages, analytical list pages, freestyle applications, and more. c. Operating Applications Once your applications are developed and exported, get the best practices you need to operate them: Git version control, automated backend and frontend testing, and continuous integration for SAPUI5 and ABAP. 1) ABAP programming model for SAP Fiori 2) SAP Fiori 3) Git 4) SAP Web IDE 5) ABAP Test Cockpit 6) Core data services (CDS) 7) Business Object Processing Framework (BOPF) 8) Service Adaptation Description Language (SADL) 9) OData services 10) SAP S/4HANA Cloud SDK

Cobblestone streets leading to perfectly preserved historic homes. Intricate wrought-iron gates opening to lush, fragrant gardens. A skyline of steeples and a river harbor bustling with schooners and sailboats. Charleston is one of America's most charming cities. In vibrant watercolors and detailed sketches, artist Diana Gessler captures the beauty and riches that make Charleston so unique: White Point Gardens, the Spoleto Festival, Rainbow Row, Waterfront Park, Fort Moultrie, the beaches of Sullivan's Island, sumptuous Lowcountry cuisine, and handmade sweetgrass baskets. Full of fascinating details--on everything from the art of early entertaining, the city's inspired architectural and garden designs, and George Washington's Southern tour to famous Charlestonians and the flags of Sumter--Very Charleston celebrates the city, the Lowcountry, the people, and our history. Hand-lettered and full color throughout, Very Charleston includes maps, an index, and a handy appendix of sites. With her cheerful illustrations and love for discovering little-known facts, Diana Gessler has created both an entertaining guide and an irresistible keepsake for visitors and Charlestonians alike.

From award-winning author Tom Piccirilli comes what Lee Child calls " perfect crime fiction, " a wholly original novel introducing the Rands, a vipers ' nest of crooks and cons, one generation stealing from the next. Upon the razor-thin edge between love and violence lives a pair of brothers, their bonds frayed by betrayals and guilt, their loyalty to each other their last salvation. Raised to pick a pocket before he could walk, Terry Rand cut free from his family after his older brother, Collie, went on a senseless killing spree that left eight dead. Five years later, only days before his scheduled execution, Collie contacts Terry and asks him to return home. Collie claims he wasn ' t responsible for one of the murders—and insists that the real killer is still on the loose. Dogged by his own demons, Terry is swept back into the schemes and scams of his family: His father, Pinsky, a retired cat burglar, brokenhearted because of his two sons. His card-sharp uncles, Mal and Grey, who ' ve incurred the anger of the local mob. His grandfather, Shep, whose mind is failing but whose fingers can still slip out a wallet from across the room. His teenage sister, Dale, who ' s flirting dangerously with the lure of the family business. And Kimmie, the woman Terry abandoned, who ' s now raising a child with Terry ' s former best friend. Terry pieces together the day his brother turned rabid, delving into a blood history that reveals the Rand family tree is rotten to the roots, and the secrets his ancestors buried are now coming furious and vengeful to the surface. A meditation on how love can confine a person just as easily as it can free him, juxtaposing shocking violence and sly humor, The Last Kind Words is the brilliantly inventive family saga that only a singular talent like Tom Piccirilli could conjure. Includes a preview of Tom Piccirilli ' s next book, The Last Whisper in the Dark. Praise for The Last Kind Words " A crime noir mystery as hard-boiled as any in recent memory, recalling the work of Chandler, Pelecanos and Connelly . . . Readers literally will be pinned to their seats until the last page is turned. " —Bookreporter " At once a dark and brooding page-turner and a heartfelt tale about the ties that bind. " —Lisa Unger, New York Times bestselling author of Heartbroken " [A] caustic thriller . . . The characters have strong voices and bristle with funny quirks. " —The New York Times Book Review " [Piccirilli] deserves a breakout novel, and this just might be it. " —Booklist (starred review)
