To use this feature, the first pilot should connect to the network normally, and the second pilot should connect in observer mode. The second pilot must use the same callsign as the first pilot, with a letter appended to the end. For example, if the first pilot's callsign is JBU123, the second pilot should use JBU123A.

The Private Pilot Manual is packed with useful and important information, like several of the FAA publications put together but more graphic intensive and a bit easier to read. Everything I would expect from Jeppesen. Each section ends with a summary and a list of key terms, as well as questions to help you burn the knowledge better into your mind.
