Have I Been Stupid?

Haven't You Been a Good Girl Long Enough? If you're anything at all like me, you've been a very good girl for a very long time. So long you've probably forgotten the last bad thing you did. So long you've probably forgotten how great it feels to lie, cheat, steal, dress trashy, stay out late, break curfew, smoke cigarettes, drink beer and kiss boys.Or maybe you've never known what any of those things feel like; I dunno. I sure didn't. I mean, sure, I'd had my share of kisses (four, to be exact), but nothing crazy or unexpected.Before I became a skank, I'd never broken curfew, never gotten a grade less than a B+, never worn anything other than full brief cotton panties (and only in one color: nude), never smoked, rarely drank and certainly-certainly-never felt the breeze on my tush while walking through a fully-populated high school hallway.I was as squeaky clean as they came, which probably had a lot to do with how quickly I turned myself out. I mean, it was literally night and day; I mean that-night and day. I went to sleep a good girl and woke up bad, bad, bad.But here, let me explain

Have I Been Stupid?

In this funny, outrageous and empowering book, Dr. Lissa Rankin answers all the secret gynecological questions that most women wonder about, but have always been afraid to ask. Suppose you had a wise, warm, funny best friend-who just happened to be a gynecologist. You're out with the girls for cocktails and the conversation turns to sex, and then to girly parts. One by one, you start asking her all the questions you've secretly wondered about-and discover that you have a lot in common. If you were to write those questions down, then you'd have What's Up Down There?, a life-changing little book that answers: - Do old ladies have saggy vaginas? - How do male gynecologists have a sex life without feeling like they're stuck at the office? - Is it normal for your inner labia to hang out of your outer labia? - Can the baby feel its mom having sex during pregnancy? - How common is it for one's boobs to be two totally different sizes? And so much more! As outrageously funny as it is empowering, this book reveals how to love yourself and your body-and will have you recommending it to every woman you know. From off-the wall sex questions to serious topics of women's sexual health, What's Up Down There? provides answers to women of all ages and stages.

A tale set at the end of the twenty-first century finds the planet's divided hominid population subjected to the forces of a splintery metaconsciousness that inundates networks with plans for cataclysmic technologies, prompting an unwitting jury member to participate in a grueling decision.

Offers wisdom and guidance for Christians to strengthen their faith, discussing how God speaks to individuals, how Jesus' death on the cross paid for sins, who the Holy Spirit is, and more.

When it was formed, Trojan Records epitomised the punk DIY ethic over a decade before 1976. With a blizzard of individual labels and a marketing strategy that involved selling product out of the backs of vans, the company spearheaded the injection of reggae and ska into the vein of British youth consciousness. In its first brief six-year incarnation, Trojan produced nearly 30 hit singles, created the legendary compilation series Tighen Up and launched new acts like Jimmy Cliff, Desmond Dekker, Ken Boothe, The Pioneers, Bob And Marcia, Greyhound and Dave And Ansell Collins, all against a background of cut-throat politics, cultural division and prejudice. Featuring a comprehensive discography, Young, Gifted And Black is the official story of Trojan Records, lifting the lid on the scheming, backbiting and sheer seat-of-the-pants inspiration that made the label such a powerful force for black UK music.

This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.
