Meet the Billionaires: the 1,645 men and women who control a massive share of global assets worth \$6.5 trillion. Darrell West reveals what the other 99.99998% of us need to know. With rich anecdotes and personal narratives, West goes inside the world of the ultra wealthy. Meet U.S. billionaires such as Sheldon Adelson, Michael Bloomberg, David and Charles Koch, George Soros, Tom Steyer, and Donald Trump—as well as international billionaires from around the globe. The growing political engagement of this small supra-wealthy group raises important questions about influence, transparency, and government performance, and West lays bare the wealthification of politics, including: • How billionaires can block appointments and legislation they don't like • Why the supra-wealthy moved into policy advocacy and referenda at the state level • Why billionaires run for office in more than a dozen countries around the world

He needs a wife. She needs a paycheck. But neither expect the heat in their marriage of convenience. No one puts CEO Jack Sutton in a corner, not even his mother... or her will. If he wants his inheritance, he needs to be married, but no one said the marriage had to be anything other than a business arrangement. There are plenty of willing women, and they'll play by the rules: stick to the script and don't fall in love. He only has to find one in time. Too bad he only left himself a few hours. Kelly Bradley made it into the law school of her dreams, but she has no way to pay and the tuition deadline is fast approaching. Marrying a billionaire might be a bit drastic, but spending one year on his arm will make all her problems go away... if she can keep her heart in check. That's never been a problem in the past. It's a business arrangement, but when one thing leads to another will Jack be able to let Kelly go? Or can he find a way to renegotiate the deal of his life? This is a standalone book in the Sutton Billionaires Series. A shorter version of this book was previously published in the Sutton Capital Series under the title Legal Ease.

Merina Van Heusen will do anything to get her parents' funky boutique hotel back--even marry cold-as-ice-but-sexy-as-hell Reese Crane. 100 Shades of Sin... In The Billionaires, Calista Fox delivers a sexy and sensuous friends-to-lovers tale with a delicious love triangle twist. Jewel Catalano, Rogen Angelini, and Vin D'Angelo had been childhood best friends, spending every possible moment with one another. Rogen became her first love, the first one to show her what pleasure could be. Until a volatile feud erupted between their powerful California wine country families and she and Rogen were torn apart from each other. What she didn't expect was to find comfort and passion like she had never known in Vin's arms and bed. But when that too ended in disaster, Jewel moved to San Francisco to work for the Catalano empire. Years later, a series of daring acquisitions brings Jewel back to River Cross, the hometown where Rogen and Vin have recently returned as well. Jewel has the curves, the smarts, and the success to bring any man to his knees—especially the two men who remained best friends and still burn to possess her. Mixing family business with erotic pleasure ignites a smoldering love triangle. But in order to pull off the bold deal that will build the trios' own legacy and to stay in their heady, sensual paradise, they must discover what true love really is—or lose everything their hearts' desire, in The Billionaires by Calista Fox.

What makes a company truly outstanding? What is the secret sauce of delivering successful results over multiple decades? What is common to Asian Paints, HDFC Bank, Axis Bank, Marico, Berger Paints, Page Industries and Astral Poly? They are Unusual Companies, built by Unusual Billionaires. This book tells the story of these seven companies, handpicked out of 5000 listed on the stock exchange. Built by visionary business leaders, they have delivered outstanding results for a decade and more. How did these companies do it? Why couldn't this be replicated by other companies? What are they doing differently? Saurabh Mukherjea, bestselling author of Gurus of Chaos, delivers an exceptional book with lessons to learn from these seven businesses. Mukherjea tells you why focusing on the core business is central to corporate success and how a promoter giving up control to the top management could be a boon. He also explains how investors can generate market-beating investment returns from identifying companies such as these using a simple set of metrics. Packed with these learnings are riveting corporate stories of how Hindustan Unilever made an aggressive bid to buy Harsh Mariwala's business, but had to sell a business to him in a few years, or how Page Industries found an innovative way to stop unionization at their manufacturing units. Other stories include the turnaround of Axis Bank and the boardroom coup that led to its chairman's exit and how Vijay Mallya sold Berger Paints to the Dhingra brothers. This book is mandatory reading for anyone who wants to understand how business is done successfully in India.
