Over the past nine years, I have worked with a very large number of unemployed people, and people who wanted to advance their career and get a better job. This book will reveal many priceless information, such as:- why interviewers ask certain questions- what do interviewers really want to hear from you- how to avoid ruining your chances for getting the job you want- reveal the best way to answer interview questions - reveal the most frequent job interview questions- and much, much more If you are not sure how to prepare for the job interview, or you are clueless how to answer the questions, or if you just want to improve your chances of getting the job you really want, this is the right book for you!

This is a 3-book bundle, which addresses various subtopics, including but not limited to these: Book 1: Are you nervous about your job interview? Do you have the feeling that you are not prepared to face an invasive number of questions about your accomplishments and career choices? Well, have no fear, my friend. You are at the right address. This book can guide you along. Topics that will be discussed in this book include how to make a lasting first impression, asking specific

questions about your motivation, how to dress, what to bring, how to react on the phone (if applicable), how to show your interviewer that you are listening and interacting, etc. Book 2: This book will lead you in your next job interview. It will help you understand the reasons why interviewers ask specific questions and how to answer them. Being prepared for those questions can increase your chances of getting the job you want. It will also show you which questions are smart to ask your potential future employer, because, as opposed to what some people may suppose, this is an important part of the interview to show how passionate you may be about your future job. Last but not least, most people forget to follow up and simply wait for the interviewer to contact them. This is a big mistake. If you want to stand out among the crowd, it is important to follow up after the interview, and show how driven and motivated you are. Book 3: When it comes to job interviews, it would surprise you how many people don't have a clue what to do. They think if they just act like themselves (nothing wrong with that), all else will just happen. That's not how it works. The people who are most prepared usually stand the highest chance to make a good impression on the interviewer. Aside from questions like "tell me about yourself" or "how would you describe yourself," they will look for competent employees who know how to sell their skillset with confidence. They want to know about your weaknesses, and if those weaknesses will create any problems in their company. So, how will you do in your next job interview? Well, it's up to you. But the right information, such as the details you can find in this guide, can certainly help.

A job interview preparation guide.

A comprehensive guide to landing one of the hundreds of thousands of jobs filled each year by the nation's largest employer—the U.S. government."

Covers all the real-world issues not taught in medical school
Audience includes residents (85,000+) looking for a job each year and practicing physicians and surgeons seeking a job change

Drawing on his extensive experience evaluating applicants for his marketing agency, and featuring stories based on real-life situations, sample cover letters, resumes, and straightforward advice, Don Raskin's *The Dirty Little Secrets of Getting Your Dream Job* offers all the necessary tools for navigating the tough job market and securing your dream job.
